## UNMASK OUR CHILDREN

Martin County School Board members operate in a vacuum. They don't believe that an Executive Order by the State's Governor DeSantis applies to

our schools. Last week the Governor proclaimed that Florida is really open. All Covid restrictions were lifted. However, the MCSDB announced that their schools would continue to mask the children.

Fifteen parents spoke before the board May 4, asking that they #unmaskourchildren. At a minimum, board members were asked to make masking optional. Outside, parents waved signs and used a bullhorn to notify the public that they had "Had Enough in Martin County." There was coverage from local TV Station WPTV.

Unfortunately, the meeting yielded no results, with a plan to reconvene in an "emergency meeting," May 12 at 4 p.m. At that time, they will decide the fate of the masks to year-end. The Superintendent advised the board that their decision would

need to be in time for graduation. Students and parents were waiting for plans to be solidified.

School boards are not parents; they are not health advisors. Decisions about children's health rest with parents. Sadly, having to ask the district to #unmaskourchildren is something that shouldn't have to be done in the first place. This went on way too long and set the table for future edict from this board.

We must take a stand for the future of our children. Do not allow these authoritarians to make decisions like this. Stand

up and replace these representatives. Find candidates that enjoy freedom and liberty. There are three board members whose terms expire in 2022; Victoria Defenthaler, Christa Li Roberts, and Tony Anderson. They need to go.

**WILL YOU STAND A POST?**

Friends,

It's time that we raise up new people, who love liberty, for offices in Martin County. There are people serving in the Martin County Commission, the Martin County School Board, and the City of Stuart who act as authoritarians disregarding the people's liberty.

Would you be willing to stand a post for your family and community? Do you know anyone else who might also be willing?

In last year's election 2 County Commissioners ran UNOPPOSED. They were not even subject to a vote of the citizens. This should not be. This allows them to act in authoritarian ways over the will of the people. vaccine while I am stationed on the wall to protect you.

Standing for public office for liberty minded folks is no different than locking our doors. We need candidates and supporters of candidates who will stand a post and state clearly that no one is coming for your property on my watch. No one is going to force you to wear a mask or close your business or take a vaccine while I am stationed on the wall to protect you.

Candidates need supporters.

If we are going to defend our republic, we need folks who will keep the fires of liberty burning in every community, every school meeting, every church, every family.

Candidates will need money and time from us. Not everyone must become a candidate, but everyone can do something.

There are 3 members of the MC School board up for re-election in 2022 as well as the entire Stuart City commission in 2021 & 2022. That makes 7 seats where we need folks to stand a post for liberty and run for them.

County Commissioners	School Board	City of Stuart Commission
➤ Sarah Heard (2022)	➤ Christia Li Roberts (2022)	➤ Troy McDonald (2021)
➤ Stacy Hetherington (2022)	➤ Victoria Defenthaler (2022)	➤ Becky Bruner (2021)
➤ Ed Ciampi (2024)	➤ Tony Anderson (2022)	➤ Eula Clarke (2022)
